

# THE IRETONS OF IRELAND 1650-1900

---

*The Iretons of Ireland, 1650-1900* is a two-volume work which includes everything we have found about any Ireton who ever lived in Ireland in that timeframe.

*Volume I* is a history and discussion of each Ireton living in Ireland or who came from Ireland in the period 1650-1900. This is a 357 page book with 20 pages of single spaced references (1350 references). This book also includes 19 photographs of Iretons, their locations and their life. Several Iretons emigrated from Ireland and their complete life is presented as far as known.

*Volume II* is a computer generated genealogical listing of each person. The four line listing for each of the almost 1500 persons in Volume II allows easy analysis of how each person is related. In addition this 292 page volume includes known descendants born after 1900 (Volume I does not). This is the most complete listing of Ireton genealogies ever printed. Volume II also includes the addresses of almost three hundred Iretons or Ireton descendants around the world.

Both books are photocopy quality, spiral bound book. Each person is identified by number so that he or she may be found easily in the other volume. Please note these only include those Iretons from Ireland. Later works will cover those born in England.

These are books you will treasure. They were written by an Ireton descendant, who has published two other Ireton books, and who has 30 other books and over 250 other publications to his credit. They are an encyclopedia of Ireton Irish ancestry and make excellent gifts for relatives and libraries.

Those interested in Ireton genealogy may also be interested in the *Ireton Newsletter* for ongoing Ireton research and genealogy. That publication is in its 25<sup>th</sup> year.
