## John Waters and Family

1871-1968

Benton Township, Butler County, Kansas

By  
*LaRoux K. Gillespie*

After the publication of the John Water's book, a number of letters, post-cards, photographs and other journal entries came available to the author that further defined the family life and of John Waters and his children. Enough material was unearthed to provide this 110 page supplement to the first Waters book.

While mostly describing the lives of his children, it does provide a new glimpse into their relationships. It also provides several photos of the 1870's and 1880's and later.
